

TYPE A STUDIO APARTMENTS

There is over 600 square feet of an enclosed livable area and 99 square feet of picturesque lanai. The living room is carpeted and secured by a simulated acoustic ceiling. (Fire and sound proof walls surround the tiled all electric kitchen.) As in the other units, a breakfast pass through counter is standard. These are but a few of the extra touches that make this apartment a home.

TYPE B ONE-BEDROOM APARTMENTS

This one-bedroom apartment has the features of the other units . . . and a few extra. For example, the living room is carpeted wall-to-wall and an aluminum framed, bronze anodized glass jalousie window is located adjacent to the sliding glass doors, and the hallway and living room are wall-papered. An all-electric tiled kitchen augments a unique breakfast bar. The spacious bedroom with ceramic tile walls gives way to a fully equipped bathroom with obscure glass sliding doors. Perhaps the finest feature is the large living room, an ideal spot for bringing the scenic sea to your 655 square foot home.

TYPE C ONE-BEDROOM APARTMENTS

Modern as it is, this comfortable one-bedroom apartment brings the outdoor Hawaii to your living room. Overlooking the sand and surf of Kahana Beach, this apartment provides the feeling of spaciousness that is increasingly hard to find. 707 square feet of enclosed livable area and 99 square feet of lanai entails an exterior balcony-walkway and five bays of windows with obscure glass slats in the bedroom. An ideal spot for getting away from it all, and yet continuing to be a part of the Hawaiian lifestyle.
